keep your vehicle looking new, longer!

## Exterior Protection

Have you ever come out of a store to find a runaway shopping cart has hit your vehicle or a windblown door has made a ding in your door? Dents and dings can be annoying, not to mention that they may reduce the value and appearance of your vehicle. Now you can maintain that “showroom look” conveniently and at an affordable price with Dent Restore Plus.

Through an innovative process called Paintless Dent Repair, minor dents and dings that do not compromise the paint can be removed from your vehicle using specialized hand tools that manipulate and flex the metal back to its original form. The process works from behind the vehicle’s damage so it doesn’t require any sanding, painting or body filler. In most cases, there is no evidence that such a dent or ding ever existed.
